

SCHEDULE OF TRAININGS FOR DRUG PREVENTION FOR THE YEAR 2018/2019

The National Authority for the Campaign against Alcohol and Drug Abuse (NACADA) was established through an Act of Parliamentary in 2012 and mandated to coordinate a multi-sectoral campaign aimed at preventing, controlling and mitigating the impact of alcohol and drug abuse in Kenya.

The overall goal of drug prevention training is to reduce the health, social and economic problems associated with substance use by building prevention capacity on the most effective evidence-based preventive interventions and strategies by applying the key findings reported in the International Standards for Drug Use Prevention to 'real' world communities across the globe.

In this connection, NACADA has organized clustered training programmes to meet the needs of workers as employees and as parents shown below.

SCHEDULE OF TRAININGS FOR DRUG PREVENTION FOR THE YEAR 2018/2019				
PROGRAMME	TARGET GROUP	DATES	VENUES	COSTS

WORKPLACE BASED PREVENTION INTERVENTIONS

This provides an overview of the role of work and the workplace in society, how stress and other work related influences affect people's risk of substance use, the science behind workplace preventive interventions, and the application of such evidence-based approaches in work settings around the world. The objectives of the training include:

- To provide an overview of the problem of drug use in the workplace.
- To help participants understand workplace risk and protective factors for drug use.
- Discuss the problem of drug use from the perspective of employers, employees and families.
- Describe the key components of effective workplace drug use prevention practices.

FAMILY BASED PREVENTION INTERVENTIONS

This provides an overview of the family as the primary socialization agent of children, the science behind family-based preventive interventions, and the application of such evidence-based approaches to help prevent the onset of substance use in children. The objectives of the training include:

- To provide an overview of the role of the family in the prevention of substance use.
- To introduce different types of family-based prevention programs and parenting skills in drug prevention.

INTRODUCTION TO PREVENTION SCIENCE

This provides the overview of the science that underlies evidence-based preventive interventions and strategies and the application of these effective approaches in prevention practice.

The objectives of the training include:

- Discuss the levels of progression of substance use and the role of prevention.
- Explain the scientific foundation of prevention to the public, stakeholders, policy-makers, and drug use prevention specialists.
- Describe the background and principles underlying the development of the United Nations Office on Drugs and Crime International Standards on Drug Use Prevention
- Describe the importance of implementation fidelity and monitoring of the delivery of prevention interventions and the implementation of prevention policies.

*** We can also organize training for special groups in churches, residence associations and non-governmental organizations and other formal groups based on request.
