

SCHEDULE OF TRAININGS FOR ADA PREVENTION AND MANAGEMENT FOR THE YEAR 2020/2021

The National Authority for the Campaign against Alcohol and Drug Abuse (NACADA) was established through an Act of Parliamentary in 2012 and mandated to coordinate a multi-sectoral campaign aimed at preventing, controlling and mitigating the impact of alcohol and drug abuse in Kenya.

The overall goal of ADA prevention training is to reduce the health, social and economic problems associated with substance use by building prevention capacity on the most effective evidence-based preventive interventions and strategies by applying the key findings reported in the International Standards for Drug Use Prevention to 'real' world communities across the globe.

In this connection, NACADA has organized non-residential clustered training programs to meet the needs of workers as employees as shown below.
